

MISSOURI SCHOOL LIBRARIES TRANSFORM

SCHOOL LIBRARIANS IMPROVE STUDENT ACHIEVEMENT

"The impact

of well-staffed, better-stocked, and better-funded libraries cannot be explained away by poverty, race/ethnicity, or other school and community factors known to impact student success."¹

"In a national study,

even if schools had overall staff declines between 2004 and 2008, students' standardized reading scores were better in schools that maintained or gained a librarian during this time period."³

SCHOOL LIBRARIANS MAKE A DIFFERENCE IN MISSOURI

"Literacy is our leverage in Riverview Gardens. Our libraries are the literacy hubs of our schools. Without our libraries and librarians, our scholars could not have made the progress they have in recent years."
Dr. Scott Spurgeon, Superintendent, Riverview Gardens School District

"Our school librarian provides many opportunities for students that allow them to conduct research on important topics within our curriculum. She works to foster a love of reading and supports the implementation of Accelerated Reader which allows students to read books on their level to increase their reading performance"
Tangie Oglesby, Principal, Combs Elementary School, Ferguson-Florissant School District

"My school librarian is a vital part of teaching our curriculum. We collaborate on lesson plans, especially to integrate literature and primary sources into the social studies framework. My students, from freshmen to AP seniors, know and interact with our librarian regularly. For me, I think it is important for students to know that teachers and librarians collaborate not only to model that behavior, but so they know there is a team of professionals working for them."
Jason Miller, Social Studies Teacher, Rockwood Summit High School, Rockwood School District

"In a K-12 district, the librarian is part literacy expert, part technology guru, part lifelong learner, part sage and part magician! They are the unsung hero for finding ways to connect kids to historical heroes or fantastical realms; allowing young minds to flex and grow in ways never imagined. The library is at the heart of any school and as such, it often finds a way to embed itself into the heart and minds of students for many years to follow. The key to unlocking this connection can be found in the hands of a librarian."
Randy Gum, Principal, Miller County R3 Schools, Tuscumbia

"If it were not for our school librarians, my confidence as a teacher of research and inquiry would be diminished. Each time I collaborate with these professionals on a project, I return to my classroom with solid ideas about how to help my students become self-sufficient researchers."
Katy Wilson, ELA Teacher, Lee's Summit West High School, Lee's Summit R7 School District
